

POLICY IN THE FIELD OF EXPORT CONTROL

SVERDLOVSK CHEMICAL ENGINEERING RESEARCH INSTITUTE (SCERI JSC) is a modern engineering company, specializing in development, manufacture and supply of equipment and sophisticated technological systems for nuclear power plants, nuclear-fuel cycle enterprises, radiochemical productions, and also equipment for other branches of industry.

Export control is a system of measures providing implementation of the procedure established by the Federal Law No.183-FZ dated 18.07.1999 "On Export Control", other federal laws and regulatory legal acts of the Russian Federation for performing the foreign economic activity related to commodities, information, works, services and results of intellectual activity, which may be used for creation of mass destruction weapon, its delivery means, other types of weapon and military equipment or in planning and (or) commission of terrorist acts.

SCERI JSC targets related to export control:

- adhering to international commitments if the Russian Federation in the field of nonproliferation of weapon of mass destruction;
- providing implementation of governmental policy related to export control.

Primary objectives of SCERI JSC in the field of export control :

- implementation of SCERI JSC Internal Export Control Program– a system of measures of organizational, administrative and other nature with the purpose of adhering to the Export Control Regulations of the Russian Federation;
- obtaining the required licenses and permissions from FSTEC of Russia when exporting/ importing of commodities, information, works, services and results of intellectual activity being under control;
- carrying out events of informative nature targeted at acquiring knowledge by SCERI JSC employees in the field of export control;
- inspiring a sense of high responsibility to the employees, who possess knowledge in the field of nuclear technologies obtained when fulfilling their obligations in SCERI JSC;
- continuous qualification enhancement of SCERI JSC specialists involved in foreign economic activity and export control issues.

SCERI JSC top management undertakes to strictly adhere to the export control requirements when conducting foreign economic activity and follow the principle of rejection of any export or import deals, which can cause violation of the law and international commitments of the Russian Federation or cause damage to governmental interests.

SCERI JSC top management undertakes responsibility for implementation of the policy in the field of export control.
